

# **Johnson & Johnson Issues Statement on March 27 Unanimous Defense Verdict in New Jersey**

March 27, 2019

**New Brunswick, NJ** – Today’s jury unanimously ruled that Johnson’s Baby Powder does not contain asbestos and was not the cause of the plaintiff’s disease, underscoring the decades of clinical evidence and scientific studies by medical experts around the world support the safety of Johnson’s Baby Powder. It’s also important to emphasize the track record in these cases. This is the third verdict in favor of Johnson & Johnson in recent months, and of the last 9 mesothelioma cases, three ruled in favor of J&J, and five resulted in mistrials. It remains true that of all the talc-related verdicts against Johnson & Johnson that have been through the appeals process, each one has been overturned.
